

ALUMNI FEEDBACK REPORT

Academic Year 2021-2022

DIT UNIVERSITY

Mussoorie Diversion Road Dehradun, Uttarakhand-248009

Feedback Analysis Report on Curriculum
(2021-2022)

B.Tech CSE

3. Alumni Feedback Analysis

3.1. Parameters for Alumni feedback

Below mentioned are the questionnaire for Alumni feedback survey:

Q. No.	Statements
A-Q1	Various courses helped in acquiring the ability to link theory to practice.
A-Q2	Curriculum contents helped in problem formulation and solving skills.
A-Q3	Ability to design a system component or process.
A-Q4	Curriculum is sufficient to develop the oral and written communication.
A-Q5	Report writing and presentation skills.
A-Q6	Ability to work in team and challenging situation.
A-Q7	Rate the options given for electives in the program to generate specialization.
A-Q8	Value added courses helped in acquiring modern technical skills.
A-Q9	Rate the ability to apply new techniques through self-learning.
A-Q10	The relevance of syllabus content was up to date with respect to current industrial needs.
A-Q11	The courses taught helped in applying ethical practice and commitment in professional practices.
A-Q12	Acquired the ability to work as a team member or a leader in industry after completing the program from university.

The remarks section is provided in the survey for additional suggestions.

Feedback Analysis Report on Curriculum
(2021-2022)

B.Tech CSE

3.2. Alumni feedback

The alumni feedback survey is conducted after the concluding the academic year as per the DIT University policy. The scale from **strongly disagree (1)** to **strongly agree (5)** has been used as responses. The feedbacks of the alumni of B. Tech CSE have been collected for the year 2021-2022 for the questionnaire. Total **13** alumni participated in the survey.

Table 5: Mean score of alumni feedbacks.

Sr. No.	Statements	Mean Score
A-Q1	Various courses helped in acquiring the ability to link theory to practice.	4.2
A-Q2	Curriculum contents helped in problem formulation and solving skills	4.2
A-Q3	Ability to design a system component or process	3.8
A-Q4	Curriculum is sufficient to develop the oral and written communication	4.1
A-Q5	Report writing and presentation skills.	3.4
A-Q6	Ability to work in team and challenging situation.	4.2
A-Q7	Rate the options given for electives in the program to generate specialization.	3.4
A-Q8	Value added courses helped in acquiring modern technical skills.	3.7
A-Q9	Rate the ability to apply new techniques through self-learning	4.1
A-Q10	The relevance of syllabus content was up to date with respect to current industrial needs.	3.5
A-Q11	The courses taught helped in applying ethical practice and commitment in professional practices.	3.4
A-Q12	Acquired the ability to work as a team member or a leader in industry after completing the program from university.	3.5

A-Q11	The courses taught helped in applying ethical practice and commitment in professional practices.	3.4
A-Q12	Acquired the ability to work as a team member or a leader in industry after completing the program from university.	3.5

Feedback Analysis Report on Curriculum
(2021-2022)

B.Tech CSE

3.3. Alumni suggestions

- The industry is adapting to the computer integrated solutions to the engineering problems. This area is having huge demand and potential to meet the future industry requirements. Some data science related relevant courses should be included in the curriculum to benefit the future graduates.

3.4. Observations and actions

Figure 3 represents the alumni feedback mean scores.

Figure 3: Alumni feedback mean scores.

Observations:

The mean scores of the alumni feedback suggest the need for attention on offering of electives, reporting skills amongst the students and the training of professional practices. As per the alumni suggestions, the data science related courses shall be included the curriculum to meet the industry requirements.

Actions:

The observations and suggestions shall be raised in the upcoming Board of Studies meeting.

Curriculum Feedback Analysis

Alumni's Feedback Analysis (2021-22)

Alumni feedback is valuable for every educational institution as it provides the inputs regarding improvement in facilities and employability of students. The University's Internal Quality Assurance Cell (IQAC) has designed a feedback form to gather the alumni's feedback on curriculum and other areas. Department of mechanical engineering appealed alumni to provide their sincere feedback. This is the report of the feedback received from 36 alumni. Table 1 shows the details of the alumni of 2021-22. The feedback form consisted of open ended and rating questions. Based on the responses and comments of the alumni, the analysis is done as follows:

Table 1 List of Alumni Name and company

Sr.No	Name of the student	Company Name	Year of Pass out
1	Mohit Dhawan	DDA	2010
2	Tarun goyal	Entrepreneur	2011
3	Dipanshu Yogeshwar	TCS	2013
4	Aakash Singh	Owner Kamakhya Motors	2013
5	Manish Pratap Rao	Sumeru Tyres	2013
6	Ekansh Kumar	Flip Kart	2013
7	Shashank Malwa	State Bank of India	2014
8	Vivek Uniyal	PNB Bank	2014
9	Prashant Pandey	PNB Bank	2014
10	Piyush Kumar	LIC Manager	2014
11	Piyush Chauhan	Central Exice Inspector	2014
12	Arjit Kandpal	KPMG Global Services	2015
13	Yatharth Pandey	Maruti Suzuki	2015
14	Tanvir Singh	Accenture	2015
15	Ronit Singh	Tata Motors	2015
16	Bhupesh joshi	Manager Ashok Leyland	2016
17	Deepanshu Tomar	Delhivery	2016
18	Ayush Sharma	Capco	2016
19	Ayush Saxena	Prathma UP Gramin Bank	2016
20	Lalit mohan dhani	Goldman Sachs	2017
21	Paras Thakral	Honda	2017
22	Ujjwal Deep	Hero motocorp, Jaipur	2017
23	Kumar Shivam Sundaram	Tata technologies, Jamshedpur	2017
24	Alok Kumar	Securemeter	2018
25	Mohd Nomaan	Easebag	2018
26	Hitesh Sharma	Hero Motocorp	2018
27	Rohit Shiv Prashad	German Press Company	2018

34	Abhinav Nayak	Junior design Engineer Merlin Industries limited	2020
35	Akash Kumar	QA Engineer Panasonic India	2020
36	Shashank Bist	Officer, UFLEX Limited	2020

Alumni was given 12 Questions regarding feedback of course curriculum of the program. The scale for the alumni feedback used 1-Unsatisfactory, 2- Satisfactory, 3- Fair, 4- Good, 5- Very Good. Figure 1 is showing the mean scores of the alumni's rating for each statement.

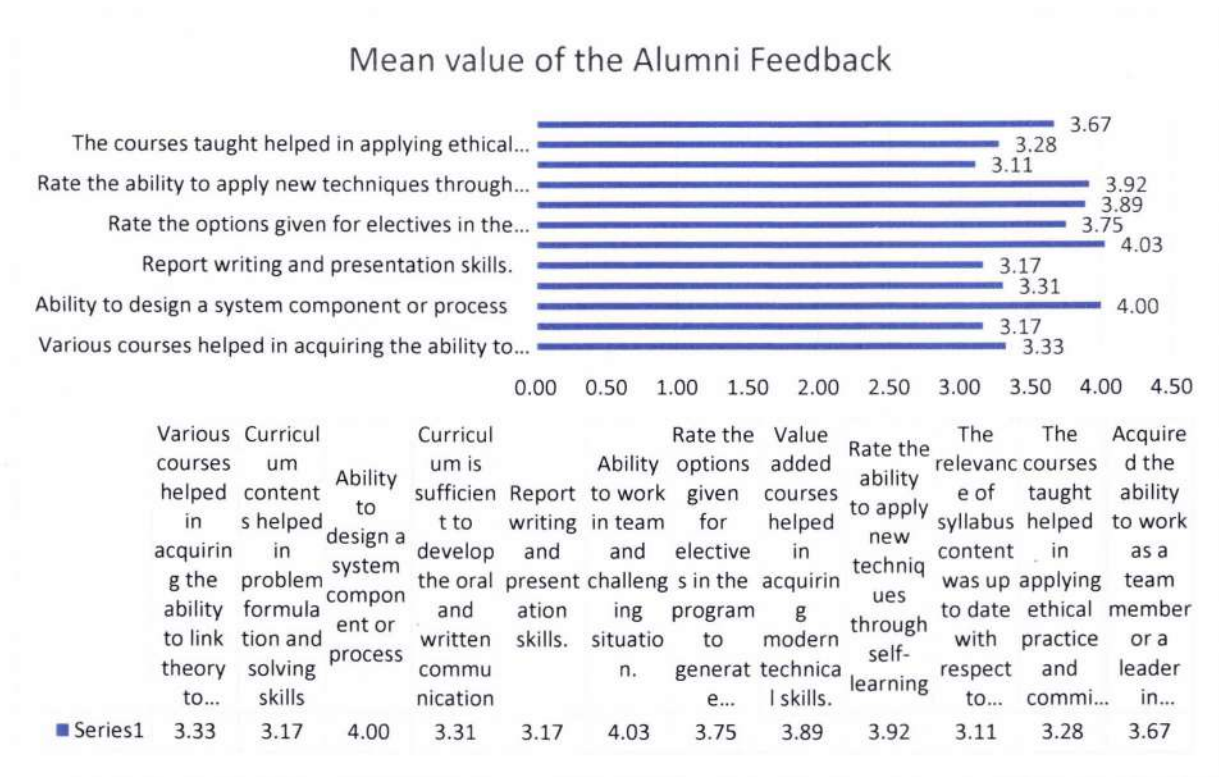

Figure 1 Mean Score of the Alumni's Rating

Most of the alumni participants have a neutral opinion that various courses helped in acquiring the ability to link theory to practice. The mean score of all the courses for this statement is 3.33. The mean score of the statement 'Curriculum contents helped in problem formulation and solving skills' is 3.17 which shows that most of the participants have a neutral opinion on this. A majority of the participants found the ability to design a system component or process (mean score 4.0). The analysis depicted that the curriculum is sufficient to develop oral and written

Department of Mechanical Engineering
DIT University, Dehradun-248009

communication which is satisfactory for participants (mean score 3.31). They also found that the program helped them in report writing and presentation skills (mean score 3.17).

The program helped the alumni to work in teams and challenging situations, as most of the participants found this on a good to very good scale (mean score 4.03). They have agreed on the options given for electives in the program to generate specialization. The mean score for the same is 3.75 which shows most of the participants rated this from neutral to good. The mean score for the 'value added courses helped in acquiring modern technical skill is 3.89 which shows their agreement on this. Most of the participants found the program improved their ability to apply new techniques through self-learning (mean score 3.92). The participants were satisfied with the relevance of the syllabus content and that it was up to date with respect to current industrial needs. The mean score for the same is 3.11. 'The courses taught helped in applying ethical practice and commitment in professional practices' which had a score of 3.28. Also they agreed on the whole program which provided them opportunity to acquire the ability to work as team member or a leader in industry after completing the program (mean score 3.67).

Suggestion: Alumni suggested to have basic lab facilities in the area of digital manufacturing (3D Printing).

Submission: The feedback of alumni was collected online and the alumni feedback analysis report is forwarded to the University's Internal Quality Assurance Cell (IQAC).

Curriculum Feedback Analysis
Alumni's Feedback Analysis (2021-22)

- ❖ Alumni remarks play very important role in the development of academic system, talents development and career advancement of junior students.
- ❖ Department of EECE asked alumni to offer their perspectives for the betterment of system.
- ❖ The record produced here represent remarks received from 14 alumni.
- ❖ Inside the desk given under the details of these alumni has been additionally given for reference.
- ❖ The feedback form consisted of open ended and score questions. Alumni was given 12 Questions regarding feedback of course curriculum of the program.
- ❖ The scale for the alumni feedback used -> 1-Unsatisfactory (US), 2- Satisfactory(S), 3- Fair(F), 4- Good(G), 5- Very Good (VG).
- ❖ Primarily based at the responses and feedback of the alumni, the assessment is in addition done to contain the guidelines.

Results:

A	Various courses helped in acquiring the ability to link theory to practice.	Good
	Report writing and presentation skills.	
	Curriculum is sufficient to develop the oral and written communication	
	Rate the options given for electives in the program to generate specialization.	
B	Value added courses helped in acquiring modern technical skills.	Need slightly improvement to be good
	Rate the ability to apply new techniques through self-learning	
	Ability to work in team and challenging situation.	
	Acquired the ability to work as a team member or a leader in industry after completing the program from university.	
C	Ability to design a system component or process	Fairly satisfactory
	The courses taught helped in applying ethical practice and commitment in professional practices.	
	Curriculum contents helped in problem formulation and solving skills	
D	The relevance of syllabus content was up to date with respect to current industrial needs.	Satisfactory

Submission: The feedback of alumni was collected online and the alumni feedback analysis report is forwarded to the University's Internal Quality Assurance Cell (IQAC).

Feedback Analysis Report on Curriculum

(2021-2022)

As a stakeholder, the Alumni feedback is valuable for every educational institution as it provides input regarding improvement in facilities and employability of students. The University's Internal Quality Assurance Cell (IQAC) has designed a feedback form to gather the alumni's feedback on curriculum and industrial areas.

Alumni Feedback Analysis

Parameters for Alumni feedback

Below mentioned is the questionnaire for the Alumni feedback survey:

Q. No.	Statements
A-Q1	Various courses helped in acquire the ability to link theory to practice.
A-Q2	Curriculum contents helped in problem formulation and solving skills.
A-Q3	Ability to design a system component or process.
A-Q4	The curriculum is sufficient to develop oral and written communication.
A-Q5	Report writing and presentation skills.
A-Q6	Ability to work in a team and in a challenging situation.
A-Q7	Rate the options given for electives in the program to generate specialization.
A-Q8	Value-added courses helped in acquiring modern technical skills.
A-Q9	Rate the ability to apply new techniques through self-learning.
A-Q10	The relevance of syllabus content was up to date with respect to current industrial needs.
A-Q11	The courses taught helped in applying ethical practice and commitment in professional practices.
A-Q12	Acquired the ability to work as a team member or a leader in the industry after completing the program at university.

Feedback Analysis Report on Curriculum
(2021-2022)

Alumni feedback

The alumni feedback survey is conducted after the concluding academic year as per the DIT University policy. The scale from **strongly disagree (1)** to **strongly agree (5)** has been used as a response. The feedback of the alumni of B. Tech and M. Tech Civil Engineering have been collected for the year 2021-2022 for the questionnaire. A total of **13** alumni participated in the survey. Table 1 represents the mean score of the alumni feedback on the curriculum for the available questionnaire for the academic year 2021-2022.

Table 5: Mean score of alumni feedback.

Sr. No.	Statements	Mean Score
A-Q1	Various courses helped in acquire the ability to link theory to practice.	3.3
A-Q2	Curriculum contents helped in problem formulation and solving skills	3.6
A-Q3	Ability to design a system component or process	3.1
A-Q4	The curriculum is sufficient to develop the oral and written communication	4.0
A-Q5	Report writing and presentation skills.	2.9
A-Q6	Ability to work in a team and in a challenging situation.	3.0
A-Q7	Rate the options given for electives in the program to generate specialization.	3.2
A-Q8	Value-added courses helped in acquiring modern technical skills.	3.6
A-Q9	Rate the ability to apply new techniques through self-learning	3.8
A-Q10	The relevance of syllabus content was up to date with respect to current industrial needs.	3.1
A-Q11	The courses taught helped in applying ethical practice and commitment in professional practices.	2.9
A-Q12	Acquired the ability to work as a team member or a leader in the industry after completing the program at university.	3.5

Feedback Analysis Report on Curriculum

(2021-2022)

Alumni suggestions

- The industry is adapting remote sensing and GIS technology, AutoCAD expertise, stadd pro with many designed software. They are also looking for computer-integrated solutions to engineering problems.

Observations and actions

Figure 1 represents the alumni feedback mean scores.

Figure 1: Alumni feedback mean scores

Observations:

The mean scores of the alumni feedback suggest the need for offering lab-oriented, field-based, and software-based subjects. In questions A-Q5 and A-Q11, it is shown that the value is less than 3 representing students' need to work on report writing and ethics. As per the alumni suggestions, the software learning courses shall be included in the curriculum to meet the industry requirements.

Actions:

The observations and suggestions shall be raised in the upcoming Board of Studies meeting.

(2021-2022)

Mean Score of the Alumni's Rating

Figure 1

Most of the alumni participants have graded fair to good that various courses helped in acquiring the ability to link theory to practice. The mean score of all the courses for this statement is 3.67. The mean score of the statement 'Curriculum contents helped in problem formulation and solving skills' is 3.33 which shows that most of the participants have graded it between fair to good. A majority of the participants found the ability to design a system component or process (mean score 3.83). The analysis depicted that the curriculum is sufficient to develop oral and written communication which is satisfactory for participants (mean score 3.50). They also found that the program fairly helped them in report writing and presentation skills (mean score 3.00).

The program helped the alumni to work in teams and challenging situations, as most of the participants found this on a fair to good scale (mean score 3.67). They fairly satisfied on the options given for electives in the program to generate specialization. The mean score for the same is 2.83 which shows most of the participants rated this from neutral to good. The mean score for the 'value added courses helped in acquiring modern technical skill' is 3.50 which shows their agreement on this. Most of the participants found the program improved their ability to apply new techniques through self-learning (mean score 3.67). The participants were satisfied with the relevance of the syllabus content and that it was up to date with respect to current industrial needs. The mean score for the same is very low i.e., 2.50. However, with regards to whether the courses taught helped in applying ethical practice and commitment in professional practices, they rated it from fair to good (mean score 3.17). The participants agreed

 (2021-2022)

on the whole program which provided them opportunity to acquire the ability to work as team member or a leader in industry after completing the program (mean score 4.00).

Relevance of curriculum in your job:

The alumni found the curriculum to be relevant and imparting adequate knowledge towards making them an efficient workforce. They also expressed that the curriculum provided them a firm knowledge base of the subject of their specialization. However, some participants have suggested that the curriculum can be improved by incorporating more field exposure. It would be beneficial in understanding the workplace and the functioning of the professional world.

Mention the Departmental / University committees would you like to contribute:

Feedback Analysis Report on Curriculum
B.A. (Hons.) English
(2021-2022)

Most of the Alumni mentioned alumni cell, placement cell, student clubs, Industry interface, soft-skill training and research club are the best platforms for their contribution.

Improvements in teaching and learning Process:

The alumni suggested some improvements in the teaching and learning process. They suggested that it could be more interesting and engaging. More exposure should be given to real-time projects enhancing work skills. However, a majority of the participants found the teaching learning process interesting and concluded that the teachers use various creative methods to help them learn better and also help slow learners.

Alumni Analysis 2021-22

Figure 1

Most of the alumni participants have fair to good opinion that various courses helped in acquiring the ability to link theory to practice. The mean score of all the courses for this statement is 3.63. The mean score of the statement 'Curriculum contents helped in problem formulation and solving skills' is 3.50 which shows that most of the participants have fair to good opinion on this. Most of the participants found the program to enhance the ability to design a system component or process (mean score 4.13). The analysis depicted that the curriculum is sufficient to develop oral and written communication which is satisfactory for participants (mean score 3.13). They also found that the program helped them in report writing and presentation skills (mean score 3.38).

The program helped the alumni to work in teams and challenging situations, as most of the participants found this on a fair to good scale (mean score 3.50). They have agreed on the options given for electives in the program to generate specialization. The mean score for the same is 3.63 which shows most of the participants rated this from fair to good. The mean score for the 'value added courses helped in acquiring modern technical skill' is 3.50 which shows their agreement on this. Most of the participants found the program improved their ability to apply new techniques through self-learning (mean score 3.63). The participants were satisfied with the relevance of the syllabus content and that it was up to date with respect to current industrial needs (mean score 3.38). The alumni rated nearly good on the point that the courses taught helped in applying ethical practice and commitment in professional practices (mean score 3.75). However, they agreed that the whole program provided them opportunity to acquire the ability to work as team member or a leader in industry after completing the program (mean score 3.88).

Relevance of curriculum in your job:

The alumni found the curriculum to be relevant and imparting adequate knowledge to work in the corporate. They also expressed that the curriculum helped them to understand the working of the professional world better. However, some participants have suggested that the curriculum can be improved with more industrial input. It should be more industry oriented. The advancements in technologies in the industry can be introduced in the course curriculum. It would be beneficial in understanding the workplace and the functioning of the business world.

Most of the Alumni mentioned alumni cell, placement cell, student clubs, Industry interface, soft-skill training and research club are the best platforms for their contribution.

Improvements in teaching and learning Process:

The alumni suggested some improvements in the teaching and learning process. They suggested that it could be more interesting and engaging. More exposure should be given to real-time projects. The teaching learning process should be based on case studies analysis. However, a majority of the participants found the teaching learning process interesting and concluded that the teachers use various creative methods to help them learn better and also help slow learners.

Alumni's Feedback

Alumni feedback is valuable for every educational institution as it provides the inputs regarding improvement in facilities and employability of students. The University's Internal Quality Assurance Cell (IQAC) has designed a feedback form to gather the alumni's feedback on curriculum and other areas. Faculty of Humanities appeals alumni to provide their sincere feedback. This is the report of the feedback received from 6 alumni. Table 1 shows the details of the alumni of 2018-19 batch who passed out on 2020-21. The feedback form consisted of open ended and rating questions. Based on the responses and comments of the alumni, the analysis is done as follows:

Table 1

Sr. No.	Name	Email Address	Company
1	Shivesh Bijalwan	jrawat1995@gmail.com	Student at Devi Ahilya Vishwavidyalaya, Indore
2	Disha	dishauni2001@gmail.com	Preparing for Competitive Exam

Alumni's Feedback

For every Educational Institution, Alumni are vital in giving their support, being ambassadors of the institution and providing constructive feedback. The feedback received from the alumni has a lot of observations and useful inputs that helps in increasing the employability of the students and advancing the curriculum of the programs. The Internal Quality Assurance Cell (IQAC) of the University has framed a feedback questionnaire. The Department of Management Studies has received the feedback from its 2021-22 alumni. The details of the alumni members are mentioned in the Table 1. The following analysis is based on the responses received from the alumni members.

Table 1

Sr. No.	Name	Email Address	Company

(2021-2022)

Mean Score of the Alumni's Rating

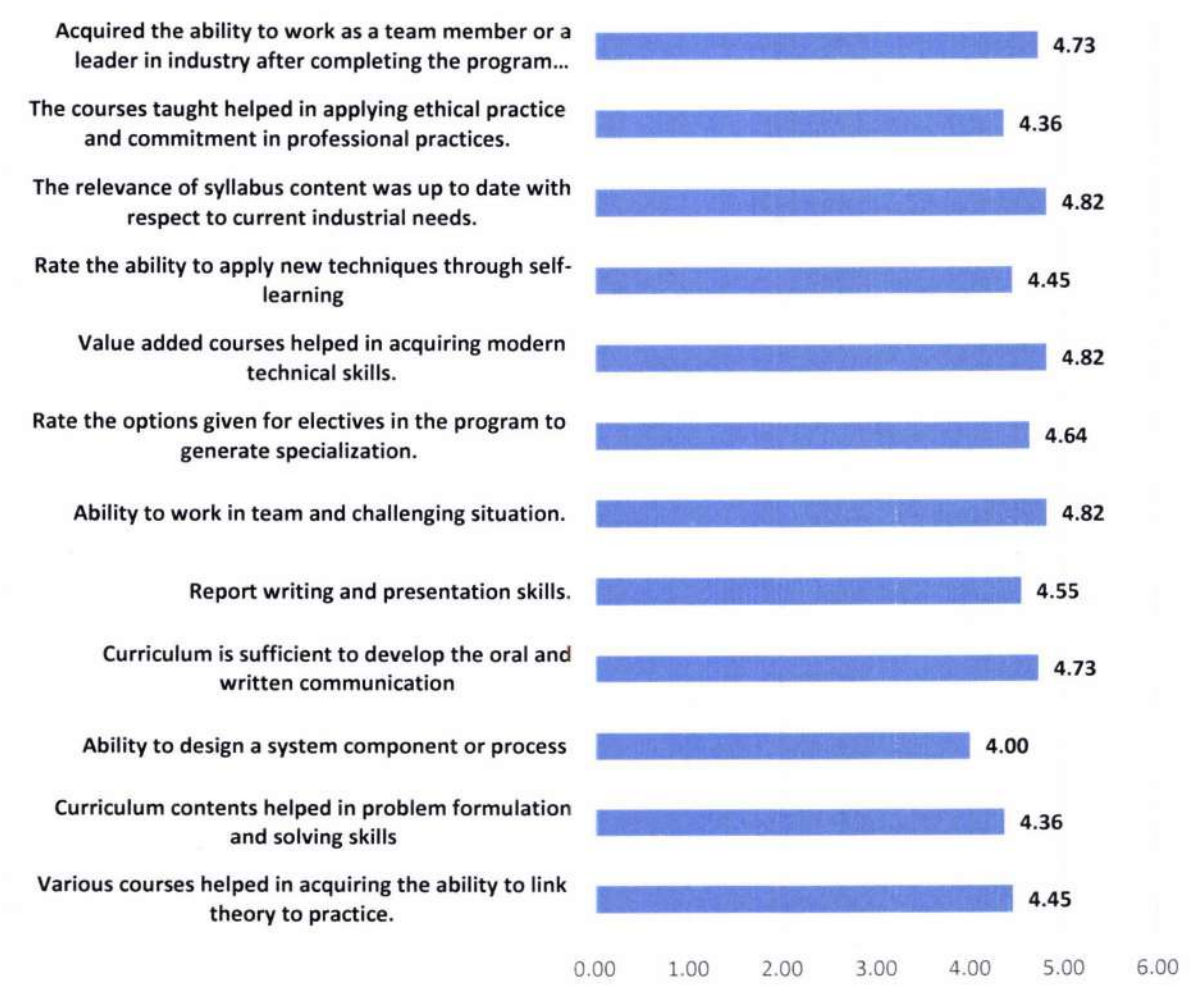

Figure 1

According to the analysis, the alumni have rated the help of various courses in acquiring the ability to link theory to practice (mean score 4.45). The contents of the curriculum have helped in problem formulation and solving skills for the alumni and they have rated it good by given a mean rating of 4.36. Ability to design a system component or process has been rated good (mean score 4). The sufficiency of the curriculum to develop the oral and written communication has been rated between good and very good (mean score 4.73). They have also acquired good report writing and presentation skills (mean score 4.55). The ability to work in teams and challenging situations has been rated between good to very good, with a mean score of 4.82.

The alumni have rated the current options given for electives in the program to generate specializations between good to very good with a mean score of 4.64. The alumni have rated

Head of Department

IQAC Coordinator

Feedback Analysis Report on Curriculum

(2021-2022)

the value added courses in acquiring modern technical skills and the ability to apply new techniques through self-learning between good to very good (mean score 4.82 and 4.45).

The syllabus of the course has been rated between good to very good in its relevance and being updated with the current industrial needs (mean score 4.82). The courses taught have helped the alumni in applying ethical practice and commitment in professional practice as they have rated it good (mean score 4.36). The alumni have rated their ability to work as a team member or a leader in the industry after the completion of the course as good (mean score 4.73).

Relevance of curriculum in your job:

According to the feedback received from the alumni, the curriculum has been expressed as very relevant, good, and updated to industry needs. The feedback of the participants expressed that the curriculum helped the alumni is fulfilling their responsibilities, developing their skills, learning new skills and adopting to the trends in the corporate. The alumni have expressed that the curriculum is helpful and relevant in fulfilling the requirements of their present job.

3.2. Alumni feedback

The alumni feedback survey is conducted after the concluding the academic year as per the DIT University policy. The scale from **strongly disagree (1)** to **strongly agree (5)** has been used as responses. The feedbacks of the alumni of M. Des(UX) have been collected for the year 2021-2022 for the questionnaire. Total **3** alumni participated in the survey. Table 5 represents the mean score the alumni feedbacks on the curriculum for the available questionnaire for the academic year 2021-2022, respectively.

Table 5: Mean score of alumni feedbacks.

Sr. No.	Statements	Mean Score
A-Q1	Various courses helped in acquiring the ability to link theory to practice.	3.6
