HOLI CELEBRATION IN DITU

DIT University was a witness to the blast of colours that spread around on 21st March, 2019 marking the celebration of Holi, the festival of colors. From using various dry colours and providing a wide spectrum of happiness and joy to the delicacies lined up afterwards, it surely was a day to remember.

Holi brings with it togetherness and warmth and takes back with it the sorrow and enmity.Having forgotten the religious and caste boundaries set anonymously, the festival groups people together in celebration and unity and every one as a true Indian inhales the festive spirit.

As DITians, we hope to keep this zest up and continue with the merrymaking after working hard for the semester.
