SDG 3

United Nations' Sustainable Development Goals (SDG) promote the notion 'Ensure healthy lives and promote well-being for all at all ages' through SDG 3. Good Health is essential to render any service to society and humanity. It is the very basic requirement of individual and irrespective of persons at any level in society must get access to quality health care services, sufficient and necessary education to promote awareness about health. In addition to that, clean environment, purity in resources, hygienic work environment are essential for achieving this goal. DIT University is committed to achieve this goal by providing necessary education, free access of healthcare services, awareness campaign and collaborative research work with Government and Non-Government agencies.

DIT University Event Report

University access to sexual and reproductive health-care services to the students

DIT University organized sexual and reproductive talk in collaboration with DIT University Infirmary for awareness about the sexual and reproductive health services. Under coordination of the student counsellor Ms. Zainab, many students of the University raised questions related to the sexual and reproductive health and got answered. This event benefitted the students a lot in clearing his/her doubts. Many other students asked questions for the menstrual cycles and their irregularities and problems and got answered to this session.
