

THE CAMPUS SCOOP

AN INSIGHT OF MONTHLY HAPPENINGS

ESTABLISHMENT OF 11 UK GIRLS' UNIT AT DIT UNIVERSITY WITH NCC

The National Cadet Corps (NCC) announced the establishment of 11 UK Girls' Unit at DIT University. On 18th October, 2018 an event was organized for the selection of young ebullient girl volunteers.

The selection process included measurement of height, weight, and vision of each student to ensure general fitness. Then, each student was required to hold two bricks (190mm×90mm×90mm), one in each hand for a span of 30 seconds to check her strength. After that, each student had to write and submit her biodata on the form provided by the organisers. They also had to go through an oral interview. Finally, a sprint race was conducted to judge the student's motor skills. A total of 17 students were selected for the battalion.

DIT University was graced with the presence of organizers from NCC, comprising of military officers, holding the ranks of Colonel and Lieutenant, as well as the budding participants, who participated in great numbers.

ARDUINO WORKSHOP

The IETE Student Forum under the guidance of the EECE Department organised the Arduino Workshop on 17th October 2018. Arduino is a pen-source electronic prototyping platform enabling users to create interactive electronic objects. 24 students from B. Tech 2nd year participated in it. These students were introduced to the basics of creating Arduino : ultrasonic sensors - a type of acoustic sensor, 7 segment display - a form of electronic display device for displaying decimal numerals which is an alternative to the more complex dot matrix displays and RGB LED. They also created a few prototypes and implemented a few circuits using Proteus - a proprietary software tool suite used primarily for electronic design automation.

The workshop not only made the students familiar with several software tools, but also deepened their primary knowledge in automation and its basics. They also learnt how to create schematics and electronic prints for manufacturing printed circuit boards and several different models using the software.

WINGS TO DREAMS

They spread their wings above the sky, like an eagle to keep an eye on their enemies. With such surreal love and inborn assiduity for the nation, on 6th of October 2018 a crew from Indian Armed Forces visited the university campus. The IAF, which substantially aims at securing airspace and conducting aerial warfare during armed conflicts, apprised the DITians of the wide span of vocations in the air force. In the conclave, the IAF personnel interacted directly with the students and made them acquainted with the various career opportunities in the Indian Armed Forces. The scholars were fascinated about being in the middle of supersonic jets, state-of-the-art technology and best of the people while working with the IAF.

IAF Visited the DIT University

The IAF squad proposed an unparalleled way of life with immense slots of both technical and non-technical limbs. IAF diversifies from flying officer and squadron leader to air commodore and air chief marshal, thus rendering enormous employment. Leaving unexcelled aspiration amongst the students, the motivating IAF assembly concluded.

UTTARAKHAND INVESTORS SUMMIT 2018

Honourable Prime Minister Narendra Modi inaugurated the Uttarakhand Investors Summit 2018 on the 7th of October 2018– an event from which the state eyes an investment of around Rs 20,000 crore in sectors including food processing, horticulture and floriculture, tourism, and hospitality among others. It aims to aid the establishment of businesses and foster their growth with good governance, policy support and Ease of Doing Business.

A few students from DIT represented the University in this International Conference to gain knowledge and experience about the various techniques of global business. Apart from Indian investors, those from Japan, Czech Republic, Argentina, Mauritius and Nepal also participated in the Summit. The students participated in various discussions on several sectors to explore new ways for industrial development in the State.

PLACEMENT DRIVE 2018

DIT University was overwhelmed by the responses of the best companies interested in hiring its students. The major companies that have visited the University for placement drives were Capgemini, Sopra Steria, Infosys, Cognizant, Decathlon Sports India and Wipro Limited.

The students were placed in these companies as per the criteria. The students had to undergo various stages such as Group Discussion round, Aptitude test, Technical and HR Interviews, as a part of the recruitment process.

The team Editorial Board congratulates all the selected students !!!

TECHNICAL FARE AT ST. JOSEPH'S ACADEMY

St. Joseph's Academy, Dehradun held an open technical fare on, 13th October, 2018, for techno addicts to show their talent and skills. Some of the best universities & colleges in Dehradun took part in this event. Five representatives of DIT University, from EECE department showed variety of bots ranging in complexity & design. The participants had to represent their innovation in front of the spectators in the Institution. They showcased the significance of automation. Their projects included bots which, in future, could be used in large scale to help reduce the work load of the common man.
